Icom's IC-T10: Rugged and Compact Dual Bander

KIRKLAND, Wash. (May 2022) – Icom's newest handheld amateur radio is the IC-T10 dual bander. This durable radio is disaster-ready and perfect for your emergency bag or out in the field on an adventure.

In addition to simple operation and outstanding performance, the IC-T10 meets MIL-STD-810-C, -D, -E, -F, and holds an IP rating of IP67, making the chassis dust-tight and waterproof. Other features of this practical radio are 5W of RF output, 1500 mW of loud and intelligible audio, a Home Button on the top panel for quick calling channel access, an FM broadcast receiver with NOAA channels, and up to 11 hours of operating time with the included BP-280 battery pack.

Icom is continuously dedicated to designing and manufacturing the best amateur radio equipment on the market. Hams the world over choose Icom for their legendary durability, quality, dependability, and ease of use. Please visit our website for more information about our **Amateur** products and view Icom-sponsored amateur **events**.

For the love of **ham radio**.

About Icom America

Icom Incorporated is a wireless communications equipment manufacturing company located in Osaka, Japan. Since Icom's establishment in 1954, Icom has had a long record as a trusted manufacturer of land mobile radios, marine radios, navigation products, aviation radios, communications receivers, and amateur radios. Icom is recognized as a reliable two-way radio global brand name worldwide with a reputation for rugged, high-quality products. Icom radios are used by many professional organizations worldwide, including military/police forces, local governments, utilities, transportation/airports, security firms, and many other users. Icom is taking this deep knowledge of radio technology and expanding to a new genre of professional radio in the satellite communication field.
